

Fellowship

1. Lord, I wish I could be closer,
Much more intimate with You.
Could we spend more time together,
You and I, yes just us two?
Seems we walk apart too often,
And we're not so satisfied.
Could we just sit down together,
You and I close side by side?

Chorus:

- Satisfied just with each other,
And our love to each so keen.
You and I so close together,
Nothing else would be between.
2. Could we talk to one another?
Could we share our thoughts and heart?
Could we share with one another,
How much each is in our heart?
Eye to eye let's face each other,
Closely drawn, ne'er to depart.
We could care for nothing other
Than to please each other's heart.
3. Let's go walk along the river,
Underneath the willow trees.
Underneath the rays of sunshine
Or the moon with gentle breeze.
You and I walk close together,
Words not needed to explain.
Just the presence of each other,
Brings such peace we must remain.
4. Could I confidently tell You
Just what I'd like You to do?
Would You do just as I ask You?
Would You do it just for me?
Yet that's not my true desire,
I'd like it to be for You.
I would really most admire
If You do what's best for You!
